

TennCare Kids Training for Professionals

TennCare Kids

- **TennCare Kids** is the name for Tennessee's Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) program.
- Through its **TennCare Kids** program, Tennessee has made a commitment to promoting good health in children from birth through age 20.
- **TennCare Kids** is a full service health care program that includes screenings, checkups and other health care services for children who are enrolled in TennCare. These services ensure that babies, children, teens and young adults receive the health care they need.

TennCare Kids/EPSDT - What Is It?

Early	Identifying problems early, starting at birth
Periodic	Checking children's health at periodic, age-appropriate intervals
Screening	Doing physical, mental, developmental, dental, hearing, vision and other screening tests to detect potential problems
Diagnostic	Performing diagnostic tests to follow up when a risk is identified
Treatment	Treating the problems found

Who is Eligible for TennCare Kids?

All babies, children, teens, and young adults under the age of 21 who receive TennCare are eligible for **TennCare Kids**.

Check In!

The checkups and other services listed below are provided by doctors, dentists and other health care professionals:

- Free medical and dental checkups
- Free medical and dental services
- Free behavioral health services

TennCare Kids Medical Screenings Are Provided by:

- Primary Care Providers (PCPs)
- Health departments
- Other TennCare providers (mobile clinics, school-based clinics, etc.)

The TennCare Kids Schedule

- Comprehensive **TennCare Kids** screenings follow the current, age-specific, preventive health care schedule recommended by the American Academy of Pediatrics (AAP).
- This schedule is known as the Periodicity Schedule.

In addition to covering scheduled periodic checkups, TennCare Kids covers other visits to health care providers, referred to as “interperiodic screens”, for children ages 0-20. These screens are used to determine whether a child has a condition that needs further care. Persons outside the health care system, such as teachers or parents, can determine the need for an interperiodic screen.

Periodicity Schedule for Infants

Every infant/toddler should have **12** **TennCare Kids** checkups before his or her **3rd** birthday.

Newborn
